Qasim Karimi

As a Full-stack developer since 2014, I bring a wealth of experience in PHP, MySQL, Javascript, ReactJS, Bootstrap, and the Laravel framework.

My career spans a wide array of web application projects, ranging from single-page sites to intricate content management systems. I emphasize clean, modular code for easy maintenance and scalability. Staying current with web development trends and best practices is a priority, reflecting my passion for problem-solving and commitment to delivering top-notch work.

If you have questions or want to discuss my experience further, feel free to reach out. Thank you for your time and consideration!
